UNITED STATES OF COLOMBIA

THE GOVERNMENT OF PANAMA AND THE FOREIGK DISHUENTS-AMICABLE SETTLEMENT OF THE TAX QUESTION-PROGRESS OF THE CIVIL WAR-CON-

blic of Colombia, nothing has transpired to disturb the in the President and the merchants, the latter prorecase its contributions, whenever for any reason lever the ordinary resources of the treasury shall not allie and for the requirements of the Government, is destionable," and "the Executive claims the to raise the commercial tax within the still have of 1866 establishes, if the laws of 1866 establishes, if

imits the law of 1886 establishes, if after the lapse of three months, circumstances should make such a measure necessary."

Public improvements are neglected, personal safety is a lubious matter, and the police of club-law eelebrity are more disturbers of the peace than conservators of it. Why, the very merchants who are so heavily taxed for the purpose of maintaining the State efficiency have no protection from the city constabulary, and are compelled to employ and pay a force of watchmen to guard their store premises at hight. Such a state of things is lamentable, and will exer continue as long as Parama is understable, and will exer continue as long as Parama is maderative control. Foreigners will ever be subjected to extortionate demands backed up by threats of force. It is this which stands as a perpetual thorn in the side of European and American business men here. Look at the railroad question, for instance. An effort is now being made, from all I cain gather to wrest the reserves ont of thands of the present holders and give them to others for more money. It is not a question of fair play, but policy, with these people. Men are mardered here and nothing more is heard. The body of an American was found on the beach some week or two ago with every indication that the mau was murdered and robbed. A ghashly wound from ear to car told the sileat but horrible tile, and yet the matter died out, on inquiries were made: the body was fung into a hole; and the affair ended. Everything is rotten in the State of Panama. But, to return to the tax question, it is betweet that this will be so decided as to relieve all daubts as to the tilegality of levying taxes upon foreigners for prosecuting civil war. The nawers of the respective government, in conjunction with the others interested, will come to such a determined understand.

when the control of t

is Colombian property, and not a Chihan or Peruvian privateer. She will have been in the hands of Mosquera complete long ere this is made public. By the way, I hear that the Moetezuma, Spanish merchant steamer, trading between Aspinwall, Jamaica and Havana, will resume her trips as heretofore. A suspicion that the Rayo would capture the Moetezuma caused her suspension. The ports of Santa Martha and Carthagena are reported blockaded. I suppose it is, as usual, a paper blackade.

PROSPECTS OF PEACE—REDUCTION OF THE ARMY.

From The Passans Ster.

The departure of the Spanish fleet to the Spanish West Indies is no sooner known than the true policy of the Executive becomes apparent. Never carning for war, they never in reality prepared for it. There was the semblance that everything was being maintained on a war footing, but it was only a flourish of trumpets; and it is so far fortunate for the Government that the enemy did not approach any nearer than the Atlantic side, as we would not have been in a position to offer anything like effective resistance. Steps will at once be taken for a considerable reduction in the army, and our fleet, composed chiefly of steamers utterly unfit for naval purposes, are to be sold.

GRESS—THE INSURRECTON OF GEN. CASTILLA—THE NATIONAL STEAM NAVIGATION COMPANY.

Prom the Panama Star.

The President is still without a Ministry, and in the present critical state of affairs General Prado presented a note in person to Congress, asking for power to suspend the habeas corpus, as otherwise he was not in a position successfully to put down the revolution.

The note has been passed to the Legislative Committee, and the opinion is very general that the President's request will be refused.

It was expected that Castilla would have lost no time in attempting to get possession of Arica, but up to the time of the mails leaving, the evening of the 23d instant, he had not made his appearance. The latest intelligence is that he was in the interior of Tarapaca with 600 men. Col. Ugarteche with a thousand troops was dispatched on the 20th, and it is hoped he would get forward in plenty of time to check the further progress of Castilla and to cut off all supplies from reaching him. There have been risings in Tacna and Arica, but easily and promptly suppressed by the local authorities.

The friends and supporters of the National Steam Navigation Company have been endeavoring to influence Congress to prohibit free navigations. A more suicidein policy could not be thought of, there are not, nor ever likely to be. Peruvian ships capable of carrying the coast traffic, and if an extinguisher is wanted on the trade and commerce of the west coast no more effectual steps could be taken than for the various Republics to protect their coasting trade. A very short time would elapse when their trade and commerce would languish and decay and altimately be reduced to maught. A policy the very reverse is what is needed. Increased and increasing communication by land and sea, especially the former, and as railreads and altimately be reduced to naught. A policy the very reverse is what is needed. THE LAST DAY OF THE SUMMER MEETING AT JURONE PARK-A BRILLIANT SCENE AND FINE EAGING. The closing day's sport of the American Jockey Club at Jerome Park took place on Saturday. The weather proving fine, at an early hour the various roads leading to the course were covered with carriages driving arriage and wagon, all filled with beauty and fashion.
ortunately there was little dust, and that only in the

We have to chronicle the same good order, decorous behavior, propriety, and respectability which have hitherto distinguished the meetings of the Club. The breezy clearness of the morning, was in the afternoon, just when needed at the hour of passemblage, followed by fleecy clouds and haze of sky that obscured and at times had the sun. At that hour the view of the races is toward West, and the tempered light came most gratefully. A more brilliant scene, a more lovely day, a happier crowd could not been seen, and enjoyment reigned supreme over all.

in to the sweep by the Club House. Here Onward came to the head of the mass behind, and all began to close in on the leaders, and they of Enohantress. Her great run had taken all play out of her, and it needed only a spirt of foot from Climax for a score of yards to catch, cut down and head the hady of the magic wand. All were roused to a brush at once, when Climax went to the lead, and Girroy dashing away, had got second to him. The hurried pace brought them all into mass, and the sight was a most beautiful one. In the next third of a mile there was a great struggle for position. All this time Earling had han quietly, in the ruck, making no play por show. Bounding the far turn Tribe called on her and she moved to the front of the cluster, ready for the final rush which would begin at the head of the home stretch. The lift of the hill at the

disposed of him, and Connoily led. In the van, he forced the pace, and got info strong work. Reaching the curve, Dazzle, fired of the play, boiled into the fence, and wasno more seen in the race. From the time of taking the lead Connoily lay in the front, up to the stand going at a great pace. Up the stretch Morrissey had made have of Rivoli, and lay well up with Connoily. The telling rate at which the mile was done brought them to the stand intifes. Away from the stand connoily lead on to the Club House. Here Morrissey made play at him, and in a beamfaul brush between them, drew out to the front at the half-mile pole. This settled the race, and Morrissey came away home in the lead, but at a rattling pace, and passed the stand the winner by five lengths in 341.

MERCHANTS UNION EXPRESS COMPANY. A CARD,

To the Editor of The Tribune.
Sik: I notice in to-day's issue of The Herald the statement that a suit has been commenced for an injunction against the Merchants' Union Express Company "for a receiver of its property, on the grounds of the reckless squandering of the money of the Company, its present insolvency, and the attempt on the part of a portion of the officers of the Company to effect, for their own benefit, a secret and clandestine arrangement for winding up the Company."

It is not true that any suit of this character has been commenced against this Company; but a summons and complaint was yesterday served on me individually in the City of Auburn, wherein the above charges, with many others equally false and ridiculous, were set forth. The complaint is but a part of the tactics of the enemy.

being a tissue of falsehoods; and every material allegation therein is utterly and recklessly untrue.

The proceeding, although taken in the name of an individual, is evidently instigated and controlled by the managers of the old Express monopolies, and an unserupulous ring of stock jobbers, who have, from the date of the organization of the company, sought by every device to depreciate its stock, and shake the faith of its stockholders and the public in the value of the stock.

Believing this to be the fact, we shall interpose no ob-

stacle to a full and complete investigation, but, on the contrary, we shall court such investigation, when we hall disprove every material allegation in the complaint, and satisfy foes as well as friends that the facts set forth in the recent report of our trustees are literally true.

So far from the Company being insolvent, the fact is that it owes no debts and never has owed any; and there has never been a day since the opening of its lines when there have not been several hundred thousand dollars in its treasury. Its business was never more prosperous than to-day, and its receipts have rapidly increased from the date of commencement up to this time; and during the same time the receipts of the old companies have as rapidly diminished. The returns to the United States Revenue office show these facts. From them as pub-Revenue office show these facts. From them as published it appears that the receipts of the Merchants' Union for the single month of May, just passed, were greater than those ever earned by any express company in the same time; and were within about 40,000 of the receipts of the American Express Company for the whole of last quarter, embracing January, February and March, and for the mouth of March last were greater than the receipts of the United States and American Express Comreceipts of the United States and American Express Companies combined.

No company of its magnitude was ever managed and

operated with greater care and economy.

It is running more inles of line, and doing a larger business, and is better equipped than any other express company in the United States, and its stock is without oubt intrinsically worth far more than that of any other

express company.

Touching the "secret and claudestine" arrangement referred to, it is simply ridiculous as well as beeklessly and wantonly untrue.

The complaint will be answered at once, and the case forced to trial at the earliest day.

J. N. KNAPP,
Secretary of the Merchants' Union Express Company.
